Anticipated Participation Quota

Level	Level Type	Unit No	Type	Qty	Parkings	Living / Working Area	Balcony + Patio / Garden Area	Roof Garden Area	Parking Area	Total Area	Living / Working Areas	Exclusive Use Areas	Adjusted Exclusive Use Area (10%)	Adjusted Total Area	Participation Quota
-------	------------	---------	------	-----	----------	-----------------------	-------------------------------	------------------	--------------	------------	------------------------	---------------------	-----------------------------------	---------------------	---------------------

NOTES:

1. Although the sectional plan once prepared will record an area of all sections based on the living/working areas only, with a participation quota based on that ratio, the seller will ensure that the participation quotas recorded above, which take into account the exclusive use areas, are registered for the scheme
2. The seller shall be entitled to adjust the anticipated participation quotas referred to in this schedule should any of the final unit configurations and areas differ from those in this schedule, on condition (subject to point 3), that such adjustments are done strictly on the basis of the ratio that each area bears to the areas of all other parts of the scheme, whether they be residential or non residential units.
3. Should the seller decide to designate the parkade as a section, the PQ allocated to that section will be based on the principle recorded in clause 13.3 of the sale agreement and the PQ recorded in this schedule."
